

## CAP100 Wiki Assignment

A wiki is a collaborative website where students from CAP100 will take turns posting notes from the lecture class. Students will work in teams to take the notes, synthesize the notes and post them to the wiki. Students can use the wiki to study for the midterm and final exams.

For the assignment students will come to class and take notes. They will meet with their team members and synthesize their notes. The finalized notes should then be posted to the wiki. The notes must be posted before the next class meeting.

The wiki is located at <http://cap100.pbwiki.com>

### Grading Rubrics:

Collaborative effort – both team members contributed to the wiki (20 points)

Organized – the information is organized and easy to follow (30 points)

Thorough – covers main topics of class presentation (20 points)

Submitted on time (20 points)

Spelling/Grammar – no mistakes (10 points) (-2 points per mistake)
