Cost of Poor Quality (COPQ)

Process	Internal Failure	External Failure	Appraisal	Prevention
Before the bushfire	House near the forest Trees near the pipeline Trees near the foul line Trees near cable Flammable house material	Warm weather Human behavior Lightning Terrorist attack		Ask people move to different location Check the pipeline, cable, foul line Plan before the extreme weather Use non-flammable housing material Take precautions during high winds (embers)
Fire Department	Short of people water system fire trucks Equipment	Traffic slows response time		Hiring more people Optimize water system More advance fire trucks, even helicopters High-tech equipment Emergency vehicle routes
Policemen	Short of people	Traffic slows response time		Hiring more qualified people Emergency vehicle routes
Medical Service	Doctors Nurses Medicine Ambulances Hospital			Inventory of enough medicine More qualified doctors and nurses Enough ambulances Enough space to take care of patients
