

Reflections#5

1. Please reflect on your learning experience in this course. Please write down the things you would recommend the instructor to KEEP if she gets a chance to teach the same course again.

1. I have found the readings inspiring, interesting, and thought-provoking.
  2. I think the "Maple Street" video is a good idea, but you might want to revise the lesson slightly.
  3. I think you have a unique ~~ex~~ perspective because of your upbringing and life in China. I think it is important that you share the relevant experiences and observations w/ your class.
2. Please write down the things you would suggest the instructor IMPROVE.

1. I think the Harry Wong and Teaching Children to Care were the least engaging texts. I also think the Jigsaw learning/presentations were slightly dull. In general, I don't think Jigsaw works!
2. I think you should assign more reading and more writing! I think most students believe that our society and our schools are basically fine. I think your class should show them that our schools and society are ailing and that, as teachers, it is their/our job to help heal a broken system!
3. Any other comments and thoughts to share with the instructor?

Please feel free to use the reverse side. Thank you very much for your time. I am grateful that I have you all in this class this semester. Your participation is highly appreciated. - Lin Lin

Basically, I think you should feel proud of what you've accomplished, but not satisfied!
