

Reflections#5

1. Please reflect on your learning experience in this course. Please write down the things you would recommend the instructor to KEEP if she gets a chance to teach the same course again.

I have had a wonderful learning experience! 😊 My eyes have been opened for so many topics to incorporate into my lessons! I like the videos - about the monsters coming to Maple Street - keep that. Keep the blue eyed/brown eyed lesson. I liked the book presentations (chapters) but wished I had the whole book to learn from. I enjoyed the handouts & the exposure to the great variety of material. Toxic Sludge is a wonderful book - and eye opening!

2. Please write down the things you would suggest the instructor IMPROVE.

I think the chapter presentations should be changed. It's difficult for a group to meet to discuss options of a presentation at this level, unless they have a few classes to get together. The analyzing of standards was confusing. Not sure why this was assigned. Don't know what we were supposed to get from this - other than to reread the NYS SS again!

3. Any other comments and thoughts to share with the instructor?

I really enjoyed the rope/Revolution lesson!
I think you bring a new sense of the definition of democracy! I loved all your stories!

Please feel free to use the reverse side. Thank you very much for your time. I am grateful that I have you all in this class this semester. Your participation is highly appreciated. - Lin Lin
