

Reflections#5

1. Please reflect on your learning experience in this course. Please write down the things you would recommend the instructor to KEEP if she gets a chance to teach the same course again.

* This course has showed me how to implement the ideas of democracy and social justice in the classroom. Students do not always understand ~~the what~~ democracy and justice relate to them daily, they have to be taught.

* Group project showed how the standards relate to social democracy

2. Please write down the things you would suggest the instructor IMPROVE.
- * The movies - eye of the storm
Twilight Zone were informative

* Articles that discuss how "democracy" comes across in the schools (like planning curriculum)

3. Any other comments and thoughts to share with the instructor

~~Make sure there is time to discuss articles that we have read for the class.~~
* Make sure there is time to discuss articles that we have read for the class.

* The book First Days of School

Please feel free to use the reverse side. Thank you very much for your time. I am grateful that I have you all in this class this semester. Your participation is highly appreciated. - Lin Lin

is a great book and every teacher could benefit from owning it but it is mostly repetition from what we

learned in our undergraduate
classes.
