

Reflections#5

1. Please reflect on your learning experience in this course. Please write down the things you would recommend the instructor to KEEP if she gets a chance to teach the same course again.

Keep Eye of the Storm - more - & I would love to see the next one where students talk about the experience when they are adults. The lesson with the fog of war was great!  
Fun lessons - great class discussions

2. Please write down the things you would suggest the instructor IMPROVE.

At first ~~lessons~~ readings were overwhelming with information, but we got in a groove as class went on!

3. Any other comments and thoughts to share with the instructor?

You are wonderful - Always happy & energetic - I love when you share personal experiences

*Please feel free to use the reverse side. Thank you very much for your time. I am grateful that I have you all in this class this semester. Your participation is highly appreciated. - Lin Lin*
