

Reflections#5

1. Please reflect on your learning experience in this course. Please write down the things you would recommend the instructor to KEEP if she gets a chance to teach the same course again.

I think that the field trip to the historical society was a good thing to include with class. I also think all the visual aids & technology used in the class worked well, and was interesting. The activities done in class both individually & in groups were excellent & made sure the class was engaging & not all lecture.

2. Please write down the things you would suggest the instructor IMPROVE.

I think maybe the one thing that could be done differently is focus on less topics, but really concentrate on the topics that are chosen to be focused on. Perhaps have 3 main topics of the course & have the semester centered around those 3 topics

3. Any other comments and thoughts to share with the instructor?

Overall I think that this was my favorite class of the semester because it was always engaging & interesting to come to. The readings & the work was fair, and the topics that were discussed have real relevance to our teaching & can be used in the classroom.

*Please feel free to use the reverse side. Thank you very much for your time. I am grateful that I have you all in this class this semester. Your participation is highly appreciated. - Lin Lin*
