

Reflections#5

1. Please reflect on your learning experience in this course. Please write down the things you would recommend the instructor to KEEP if she gets a chance to teach the same course again.
 - * I think you did a great job introducing important subject areas to the class. Many of the readings were informative and I like how you broke whole books into sections which were then presented. This alleviated the pressure of having to not only read several books, but buy them (money is tight for some people). * The "Eye of the Storm" video was great. Perhaps show the second part next semester.
 - * Trips to Historical society.
2. Please write down the things you would suggest the instructor IMPROVE.
 - * Try and organize readings according to similar content. There were ~~often times~~ too many to remember all the information a week later
 - * You really improved your directions. At first you were not as clear, but you definitely changed and became more clear.
 - * Time out presentations so you don't run out of time
3. Any other comments and thoughts to share with the instructor?
 - * I admire your energy and enthusiasm. It made coming to class more enjoyable

Please feel free to use the reverse side. Thank you very much for your time. I am grateful that I have you all in this class this semester. Your participation is highly appreciated. - Lin Lin
