

Reflections#5

1. Please reflect on your learning experience in this course. Please write down the things you would recommend the instructor to KEEP if she gets a chance to teach the same course again.

- Combine similar reading assignments
- The handouts and assignments are of reasonable length and requirements
- Peer presentations are great - I learned so much by presenting material

2. Please write down the things you would suggest the instructor IMPROVE.

- Clarity in directions and expectations (improving a lot throughout the semester :))
- Set definite time limits for presentations
- Don't wait for students to arrive - we agreed on 5:30pm ... so they should not take advantage

3. Any other comments and thoughts to share with the instructor?

- Great demeanor of your leniency.
- Eager to learn and teach - shows a love for the teaching profession
- Keep up the great work.

Please feel free to use the reverse side. Thank you very much for your time. I am grateful that I have you all in this class this semester. Your participation is highly appreciated. - Lin Lin
