

EDU 375 – FALL 2006
LIN LIN

COMMENTS:

- I have really enjoyed your class and feel that I have learned a lot. You have challenged us to try new things and have done so yourself.
- It was a wonderful course that gave several useful ideas that I will use in my future classroom. Thanks, Lin Lin, for making it a wonderful semester!
- Lin Lin was a good teacher who did her best for us. She was always readily available for help and was very understanding.
- Overall, I feel Lin Lin has been an effective teacher.
- I enjoyed having Lin Lin as a teacher. She is energetic and enthusiastic. This has become contagious for me. I feel she gives constructive criticism to benefit our skills as teachers effectively. One thing I feel she really needs to work on is her time management skills. Class is often running late and she tends to “speed” through her information. This makes things hard to understand at times and overwhelming. However, I genuinely feel Lin Lin has a desire to learn and care for each of her students. I love you Lin Lin!
- I really enjoyed this class. I enjoyed Lin Lin’s enthusiasm and positive reinforcement. She was really open to new ideas.
- This was a great class. I think the assignments have really helped me develop my teaching skills.
- Lin Lin is great and I have learned a great deal from this class. Her lessons and advice will help me as a future teacher.
- I had a great time in Lin’s class and learned a great deal. I liked how Lin pushed us to think outside of the box!
- I feel that Lin Lin has an excellent way of teaching and preparing us to become social studies teachers. I am sad to hear that she is leaving next semester. This has been a helpful and memorable experience. Lin Lin has always been there to help with questions. She responds to e-mails quickly and has helped me a lot this semester.

- Lin Lin is a very respecting, considerate woman. She is so enthusiastic and made the class very enjoyable. She is one of the best teachers I have had at Cortland. I can tell she really cares about her students.
- Lin Lin was an excellent teacher. I really appreciated it when she attempted the courses at Raquette Lake because it made her one of us!
- Thank you for all of the enthusiasm you have shown this semester about becoming a teacher. You always address diverse learner's needs and are excited to teach and have us learn. You have given us so many useful handouts/tools to help us teach. I think you are an amazing, caring individual.
- I enjoyed this course and the different skills and materials taught, but I felt rushed in class a lot. I feel time management for activities and general class time could be handled a little differently. I really enjoyed Lin Lin and think she is a wonderful teacher and a great person. She is very personable.
