LIN LIN –FALL 2008

COMMENTS:

- Lin Lin is one of the best professors I have taken at Cortland. The demonstrations she chooses for class are beneficial and directly correspond with elementary education classroom lessons. She has taught me that history can be fun for students as long as there is interesting lessons and an enthusiastic teacher!
- Lin Lin is a fair and enthusiastic professor. She is always excited to teach and always makes learning fun. She trusts her students and treats them as adults. She is a wonderful person and professor.
- Out of my 3 ½ years at Cortland, I would have to say this is definitely the course that taught me the most. Lin Lin has definitely made me realize that teaching is what I want to do. She also happens to be my favorite professor.
- Of all my classes in Block one, this is the only one I feel I truly accomplished what I thought it was supposed to do. Lin Lin was a great teacher and inspired me. She kept to what the course was about and taught us what to teach that we can use in our classrooms. She was wonderful.
- I think Lin Lin was a great teacher and has made me feel confident in my choice to become a teacher.
- We love Lin Lin!
- I loved this class and this professor! Lin Lin really brings passion into her classes and is wonderful!
- Lin Lin is a great, motivating teacher. If I had an opportunity to take another class with her, I would in a moment's notice. I love her!
- Lin Lin is one of the best teachers I have ever had. She is intelligent, kind and enthusiastic. Her style of teaching is varied and exciting. I hope to be a teacher like Lin Lin someday.
- This course was excellent. I have learned many activities that I can use in the classroom.

- This has been, by far, the most effective, well taught and interesting class in the Block. Lin Lin is an enthusiastic and caring teacher and I'm so thankful that I chose this Block for that reason. I walked in this classroom hating social studies but am walking out feeling like I could teach it tomorrow and enjoy teaching it. You have shown me that social studies can be fun, interesting and relevant. Thank you!
- I enjoyed this class and learned a lot about teaching social studies in the elementary classroom. There were a lot of activities I can use in the future.
- Lin Lin is a great professor!
- Excellent professor! Lin Lin was such a great help throughout the semester, and I truly learned so much not only about social studies content, but teaching in general. One of the best professors I have had at Cortland.
- The only thing I felt could be different was the structure of course dates. I wish we submitted more hard copies verses online.
- This class was one I looked forward to every time. It was not only informative in content but I learned a lot about other things such as teaching styles and learning levels. I loved the way Lin Lin presented things to us in a helpful way. We all really enjoyed her.
- I have learned so many activity ideas to teach social studies content that I hope to use in my own classroom.
