- Lin Lin is a great person and is really nice, but the class was very confusing and things weren't explained well.
- I believe Lin Lin was awesome. This is one of the best courses I have ever taken. I feel that I am ready to be a teacher.
- This is my second semester with Lin Lin and again I have enjoyed the class and the material presented. The lessons were well thought out and much work was put into the activities. I have found Lin Lin's information so helpful in preparing my social studies lessons and found it related to my host teacher's curriculum map.
- Lin Lin is one of the only teachers who has taught levels that include diversity.
- I found it very helpful that you gave us lesson plans that go along with what you taught.
