Subject: UN Alliance of Civilizations Asia-Pacific Regional Consultation

Dear Professor Lin Lin,

I have just finished reading your excellent article in the journal of social studies regarding the ways in which the history of the Korean war are taught across a number of countries.

At the Centre for Dialogue (La Trobe University, Melbourne), we are currently working with the UN Alliance of Civilizations secretariat to put together a list of invitees from the Asian region to attend the Asia-Pacific regional consultation this November in Shanghai.

Unfortunately the US is not on our list of states, but I wonder whether you know any outstanding scholars, policy makers, civil society figures or businesspeople based in Japan, Korea or China who we could recommend to the secretariat with an interest in inter-civilizational dialogue and particular expertise in the teaching of history across states?

If you have anyone in mind, please do let us know.

Best wishes,

Aran
