主题: Hello

Dear Professor Lin Lin,

First and foremost I would like to thank you for this course and the many valuable lessons that were taught. This course was one of my favorites. I must admit, I liked it as an online course so I do not know if I would've felt the same if it took place within a classroom. Overall, thank you for your support. One of the most important things I enjoyed was being comfortable with emailing you. I was always sure that I would receive an email back from you with the answers to my questions. Finally, please email me if you did not receive any of my assignments for some reason. I did complete all the assignments for this course on time. Thanks again.

Sincerely,

Marcus Ludwig
