

Hi, Nicole. Thank you for submitting this webquest project. I appreciate that you chose this topic for the Webquest project.

Here are suggestions for further improvement.

The evaluation page seemed to evaluate three of the tasks. However, your TASK page only mentioned the map creation. Would you like to make these two pages consistent?

The attached document showed you in detail what to change on each of the pages of your webQuest project. I would really appreciate if you could another look and address these comments and suggestions. There are quite a few spelling errors, which I believe you could correct if you had spent at most 10 minutes to review the pages. The webquest could be made more professional looking without such errors.

I'd be happy to give you up to 14 out of 15 if you send me the URL again by email (linlin@cortland.edu) of the updated webquest.

Process page:

I appreciate that you listed instructions on that page and that you found ten websites for this project. However, instead of asking students to search all those ten websites one by one, you should provide step-by-step questions/instruction for them to explore each website.

For example, for step 3, you wrote, "Use the following links to research the route the slaves traveled to freedom. Take note of important landmarks and people". Right under this part, you should list a couple of websites/links for them to click to find answers to help them complete this task.

From Resources page, one can't return to Process, nor the task page and introduction page. Those links should be fixed.

From Conclusion page, one can't return to Evaluation page. That link should be fixed.

From the TASK page, one can't go to Conclusion page. Please fix that.

I like the questions you asked on the Conclusion page. From the Conclusion page, one can't go back to Evaluation page. These are all things you need to fix please.

If you have any questions, please feel free to contact me.
