KIMBERLY ROMBACH – FALL 2007

- I think Kim is the sweetest and most sincere teacher ever. She really cares about each and every one of her students and takes the time and effort to meet each student's needs. Kim has been thorough with her lessons and has kept to the main point in each lesson. She has taught us a wide variety of material related to the social studies content. The small activities Kim used to begin class and a particular topic were very interesting. The Unit Plan was challenging and stressful. I think more time could have been used to help us prepare for the Unit Plan.
- Kim has been the best professor I have ever had. She is fair and consistent with everyone. I have never been so encouraged to work so hard for another professor. Her enthusiasm and dedication is truly an inspiration. The school needs more professors like her. I want to be a social studies teacher because of how exciting she makes it!
- Kim Rombach is an amazing professor; actually the best ever! I feel that Kim wants all of her students to succeed and does everything in her power to ensure this happens. She also expects the best from all, which truly prepared us to become great educators. Thanks for making social studies come alive! We need more professors like her. I hope to be half the teacher she is!
- Honestly the best teacher I have ever had (not just in college...my whole life). I have never seen a teacher care so much about each and every student in the classroom. I have learned so much in this class and it has really changed my perspective on teaching and has encouraged me so much. I have learned so much. Best teacher ever.
- When I first came to this class I was apprehensive, as I don't like social studies. After finishing this class, I'm not so scared to teach it. Kim really showed me how to teach with multiple perspectives and all the different resources out there to use. She is one of the best, if not the best professor, at Cortland.
- I think you were the best teacher in our block by far! I can't think of anything that you would need to improve. Thank you so much for being organized and planning everything so well. I really appreciate you always being there when I needed advice! Good luck with everything!
- She is extremely organized, which is helpful when other things are piling up. Definitely the best block teacher. She treats everyone equally and shows the truth behind history. She cares about her students like we were her kids.

- Honestly, you present information so clearly. If it were not for this class, I would never understand the concept of diversity and multiple perspectives in a classroom setting. I can honestly not point out one flaw. You are always understanding and adjustable to students. You don't teach the content, you teach the students. It shows how teachers should affect students. It is a minute clip that has changed my view on teaching.
- Kim, you have been the best teacher I have ever had at Cortland. The experiences I have had in your class will help me become a successful teacher. I appreciate you pushing me to do my best.
- Very organized – syllabus very on target. I liked how you used WebCT. Class time was very productive. Personal Timelines – a great project. I liked how personal events were involved. Next time maybe encourage students to add more personal events because it helps everyone get to know each other. I will definitely take a lot of our learned material into the teaching profession. You really are one of the best teachers I've had in my four years of college. Your class was nicely run. I love how organized you are!
- Honestly, this is the best college professor I have ever had. I learned so much from her as to how to treat everyone fairly and also a lot of great content for social studies. There is nothing I would change in the way the class was set up and delivered. Thank you so much Kim!
- Great teacher, very organized. You know exactly what she wants for each assignment. She is flexible and willing to help any time. Teaches very clearly and overall an effective teacher.
- This class has opened up my eyes to teaching classes with multiple perspectives. I love that diversity is so encouraged. I think you are a great teacher, and I have learned so much in the class. Thank you.
- Kim is a great teacher. She readily prepares us for becoming teachers. She is patient and works well with us when needed. She is very organized and makes class enjoyable.
- I thoroughly enjoyed this class. Your organization and enthusiasm is greatly appreciated and extremely helpful. Thank you for being a great support throughout this semester.
- You are one of the best teachers at SUNY Cortland. Best teacher I have ever had. No change, you're great.

- Kim, I can honestly say that you are one of the best professors I have had in my entire four years of being in college. You opened my eyes to so many different issues in the classroom that I would have never discovered if I didn't take your class. You managed to stay on the tasks, stay organized and you were extremely helpful in everything that we did. I truly will miss this class. Thank you!
- Kim, I think you are a wonderful professor and friend. As a student, I can't think of any way you can improve your class but I'm not going to say it can't be improved.
- This semester was definitely rough but your class was great. You were by far one of the best teachers and most understanding that I have ever had in this school. While there were many assignments, you spaced them out well enough that it was not that overwhelming. I learned so much throughout this course, and I truly thank you for everything.
- By far one of the best teachers I've had at Cortland. Very organized, caring and makes class interesting. This class has really prepared me for how to teach social studies in the future. Overall, the most beneficial block class with the most structure and everything is fair.
- Kim, you have been an amazing teacher. You are very understanding when we were stressed out and you honestly cared. You made learning fun and this class was very effective. I also loved that when you graded things you always gave comments. This was the best class I have ever taken and thank you for everything.
- Kim, this course was very challenging. However, because of what a great teacher you are it was the easiest class I have ever taken. You are very hard working, and I greatly appreciate everything you did for this class and me. I feel like I have a new friend.
