

EDU 375 - 603  
KIMBERLY ROMBACH – SPRING 2006

COMMENTS:

- Good implementation of community (builders). Great teaching style, open and approachable. Good luck with the baby!
- Kim was such a great teacher. She was kind and understanding of students' needs. She would always explain the work in detail and she would constantly check in and ask how it was going. Kim was one of my favorite teachers, and I really enjoyed the class.
- This class was very organized and informative. Of all my block teachers, I learned the most from Kim.
- Kim was one of the few professors students would go out of their way to plan a baby shower for because she cared so much about us and we wanted to show how much we cared about her. She was an excellent professor who always gave us time in class to vent and de-stress.
- I truly enjoyed this class and Dr. Rombach. I always felt comfortable approaching her when I had a problem. This course dealt with a lot of information and it was still very organized and flowed smoothly.
- I thoroughly enjoyed this class. I learned so much and will take away new knowledge with me into my own classroom. You are a great professor, and I will miss not having class with you next semester.
- This course was organized and had plenty of resources for me to use. I had opportunities to improve my work and the help needed to do so. I enjoyed this course and gained knowledge that I have already used in other classes and in my practicum.
- I thought this class was great. The class was well organized. I feel this class will strongly help me in my future as a teacher. Thank you for all your help and such a great year!
- Awesome job with community builders. It helped me understand how to create a family of community in the classroom.
- Kim is a great professor. She is very respectful and approachable. The coursework was reasonable and Kim was well organized.

- Kim has been a blessing to our block. She goes above and beyond to ensure that all students can be successful. She provides great notes and examples online and is always there to help everyone. Kim does a phenomenal job teaching the methods and curriculum. She is by far the best teacher I have had this far at Cortland.
- This class was very helpful. I thought Kim's organization helped to make the class run smoothly. I absolutely loved having her as a professor and would love to be able to take more classes with her. She is a great asset to the Childhood program. The class work was challenging but it was needed and was reasonable. She was always there if you needed any kind of help whether it was about the class or something else.
- You have terrific organizational skills. The website was a great help and you were always available for extra help. The Community Builders were really important in this class. I knew nothing about diversity or anti-bias curriculum. I am now excited to make this a significant part in my classroom. This was my favorite part of class. Thank you for always being so understanding.
- Kim has done a great job this semester. I feel that she really cares about us and wants us to succeed. I would take any class she taught.
- Kim is a great teacher! She is professional, helpful, understanding and caring. She challenged me and I learned a lot from the challenges. I can only hope that one day I will be as good of a teacher as she is.
- This class was by far the best of the Block 1 courses. Everything was well organized. You were the most approachable as well. Congratulations on the baby!
- I feel that this course was excellent and really helped to prepare me to become a teacher. I learned many different topics/subjects to be included in the social studies class that I would never had thought to teach. I feel very comfortable with my class and teacher. I feel very respected as a student, future teacher and a person. Overall, wonderful class!
- I really enjoyed this class. I am not really a History person but this class has made me more appreciative of the subject. Kim was very organized and used classroom management effectively.
- I really enjoyed this class and thought it was the most effective. However, more social studies content should be included and less about diversity and multi-cultural views. I think we beat the subject to death but the video on it was good.
- I have enjoyed this semester with you. I think you have greatly contributed to my professional development. You pushed me to do my best work and I think you for all the effort you have put in.

- Your knowledge inside and outside of the classroom is very apparent. I truly admire everything you did for us. Thank you!
- This class was great. Not only were you organized but you were fun too! I really appreciated how you helped and listened to me outside of class.
