KIMBERLY ROMBACH – FALL 2007

COMMENTS:

- This class has inspired me to become the best teacher I can be. Kim has influenced me in so many ways. I hope to create a strong community in my class.
- I really enjoyed this course and I learned a lot. However, I thought the printouts of the power points were very helpful, and I wish we received them all throughout the semester.
- Very good teacher. I learned a lot of useful information.
- This semester was great. I learned so many diverse teaching methods. You are a dedicated individual and I can see you love what you do. Do not change your teaching style.
- I really enjoyed your class. Thanks for everything.
- I liked this class. Community builders were always fun! It took me a while to get used to submitting everything on line, but I am glad I learned. You are a great professor who cares about us.
- You are so passionate about what you teach. It makes me excited to learn.
- I really enjoyed the class and I learned valuable information which I used in practicum.
- I think this class was taught the most effectively out of the block I classes. Kim stayed on track and didn't stray from the syllabus, which made it easy to know what was expected.
- It was always a relief to come to your class because you care about what we have to say. The block is a lot of work and you actually take the time to listen to what we have to say. You are an inspiration as a teacher. Thank you!

- I really enjoyed the instructor for this course. She was very effective in preparing me to incorporate social studies and classroom management in my future classroom.
- Kim has been a wonderful professor. She cares deeply for all of her students. She takes time to explain everything fully. She cares and understands the limitations of her students.
