I feel as though I have benefited greatly from what you have taught. In the future, I would introduce the Taskstream earlier in the semester so students can upload their work as the semester progresses.

- Great professor! You did a great job juggling two classes. I thought it would be bad to have the same teacher, but it was great. I loved getting to know the teacher better than I would have. She was the most understanding professor I ever had. More people should be like her.
