

EDU 647 - 601
KIMBERLY ROMBACH – SPRING 2006

COMMENTS:

- I loved how my instructor was very enthusiastic about the course and took an interest in getting to know her students. She was very clear in her teaching and was always willing to help out with any difficulties. I thought she was a great teacher and this was a wonderful course. I learned a great deal.
- This class was organized well. However, the amount of work to be done (especially at the end of the course) was unbelievable!! I think that makes the assignment ineffective and unreasonable!
- Professor Rombach is very professional and flexible. She understood that our schedules sometimes clashed and was flexible.
- I'm so excited that I learned how to make a web-site! It's something I've always wanted to learn but never had the time to do. This class was extremely useful and the professor was great.
- In all seriousness this was probably the most useful of all of my graduate courses. Tasks were actually applicable to classroom needs. Also, Virtual Field Trip presentations need a time limit. Overall, I'm happy I took the course!
- This professor is one of the best I've ever had. She is very professional, enthusiastic and knowledgeable. She always makes time to help us. I hope she stays here a long time. She's an asset to SUNY Cortland.
- I loved the class! The only thing I would do different is to have two research papers and have five websites for the research guide due in the middle of the semester and five at the end. Thank you!
- Kim is very knowledgeable in the webpage and internet use for Social Studies. My only suggestion is to try to include more lab time for projects. This was a fantastic class!
- This class was excellent because I learned several things that I have already incorporated into my classroom and many more things that I will incorporate. This is the most important thing for graduate classes to have work that can be effectively used in your desired profession. Nice Work!
