

EDU 657 – FALL 2006
KIMBERLY ROMBACH

COMMENTS:

- Kim has been so great in helping me get my research project started. She has been so supportive, responding to all of my crazy e-mails and asking for help or advice as I tried to get things going. I wasn't a huge fan of the team-teaching project this semester. It was way too difficult this semester as we were all too busy to do the quality work we wanted to. Overall, awesome instructor!
- Kim is incredibly supportive; she challenges us to work very hard.
- Great teacher! I learned so much beneficial information.
- Kim has been a blessing during my entire time here in the program. Kim challenges us to see our world in ways we might not have before. Thank you Kim for your patience and kindness – even when you have told us what we might not have wanted to hear. Thanks!
- This course has been very challenging and rewarding! I was overwhelmed at the beginning but with Dr. Rombach's assistance and guidance, I feel that I have accomplished a great deal. Thank you, Dr. Rombach! A fantastic, caring, motivating, challenging and awesome professor.
- This course was a lot of work. I feel that I have learned so much from Kim this semester. She is a very understanding teacher. She understands that Cortland is not our LIFE.
- Dr. Rombach was always available to answer any questions at any time, which I really appreciated. It is apparent that Dr. Rombach truly cares about the success of her students and I have learned a lot from her this semester.
- Kim provides a challenging experience that is extremely rewarding and worthwhile. She can push a student to do their best work. Very empathetic and courageous for taking on so much. A role model for future teachers.
- Kim was one of the best instructors I have had in my life. Without her guidance and support I would not have found this program to be even remotely as beneficial. She is an amazing teacher and an even better person.
- Kim's expectations are always high and clear. She does not share much of herself though, which results in a high-anxiety atmosphere as students wonder, "Will this be good enough?" Her encouragement and availability for private consultation help this somewhat.

- Kim was always available for help when I needed it and gave many helpful comments/suggestions. However, the number and length of assignments was a bit much, although I learned a lot.
- Dr. Rombach is the model of what a professor should be. She is enthusiastic, organized, intelligent and engaging. She motivates her students to continue working hard even when things may seem overwhelming. She goes above and beyond when necessary to assist her students. She is phenomenal and I cannot imagine a better professor for this course as an instructor and advisor. I feel lucky to have had her prepare me for my future endeavors.
- Kim is doing the very best she can under a lot of pressure. Her performance is so much better than I could ever do; it inspires me.
